“Moving forward in momentous times – let's seize the initiative in 2018!”

My Dear Friends,

First the bad news, just the other day I had confirmation that Facebook will not connect directly with our petition. If you post the direct link on Facebook anyone using it will only get a '404 page not found' message. This is why you have to use indirect links if you want to get your friends (including your social media friends) and family through to the petition proper (there may well also be a bogus petition out there somewhere).

So please use this indirect link:

<http://cognizantnationhq.weebly.com/universal-peace.html>

this will connect people to a dedicated page on my website where they can read the petition statement, use the direct link to add their signature and download a promo pdf document to send to their friends and family.

Alternatively, if you have a website of your own, you could set up a page dedicated to the Universal Peace Petition that includes all of the above – and post links to it on social media. This is very much the preferred option – as it will increase the points of contact that connect to the petition and obviously mean more traffic for the petition.

(NB. My website is a Weebly Freebie. There are also other hosting companies: such as WIX, Blogger and Wordpress that allow you to set up a website free of charge. My Friends, please carefully consider setting up your own pathway to Universal Peace)

And now for the good news!

*If you've been following the Pentagon Revelations that have featured so spectacularly in the media recently you will understand that what we've witnessed really amounts to official confirmation that **EXTRATERRESTRIALS ARE VISITING PLANET EARTH!** No ifs or buts, extraterrestrials are really here.*

But what does all of this mean for Universal Peace?

As you all know one of the biggest impediments to getting people to sign our petition is the lack of belief – generally – in extraterrestrial visitation. But now you can arm yourself with links to interviews with Pentagon officials and USAAF pilots admitting that craft with impossible flight capabilities are appearing in the skies over America. You can point the doubters to articles detailing the Pentagon's budget allocation of 22 million dollars a year to fund a department dedicated to investigating the UFO phenomenon. Lastly you could provide the reticent 'beleivers' with a link to a New York times article that reveals that this once secret department wasn't shut down in 2012 – but continues operations to this very day.

They will believe!*
