

## Images of Murdered Children: Innocent Victims of the Death Drones

Look long and hard at the images on these pages. Then hang your head in shame; as we must all hang our heads in shame. Because this is our work. We are to blame for these atrocities. We are all to blame because we didn't do enough to prevent such terrible events from happening. It mightn't have been our fingers on the triggers - that fired the missiles - that tore the bodies of these young children to pieces. But we did stand idly by and let it happen. And we continue to stand idly by.

Do you like being complicit in murder? I don't. How many children have to die before we stand up and say, 'No More!'? When will our common humanity become outraged enough to compel us to actually do something about these dreadful, inhumane crimes committed against innocent children?

You know that if we don't do something – anything, whatever it takes – to put a stop to this madness then it is only going to get worse. Much, much worse.

We are being conditioned to accept the inevitability of war and death on a massive scale. We are repeatedly exposed to this lie every time we pick up a paper, watch the news on TV, go to see the latest Hollywood blockbuster or listen to the pronouncements our 'leaders' make about, 'The War on Terror'. The people that are responsible for this all pervasive

disinformation/propaganda campaign are also those that will amass many billions of dollars in profit by lending us the money, to pay for the weapons, that we will then use to kill one another. And they don't care how many lives will be lost in the process.

They don't want us to care either. They just want us to stand idly by until it's our turn to die.

Well, do you care? Do you care enough to actually do something?

Please help me put a stop to this:

Please help me rid our world of all weapons of mass destruction and put an end to war.

Please go to Change.org and sign my petition: *End the Madness*.

*Petition: End the Madness on Change.org*
