“What extraterrestrials really want...IS EXACTLY WHAT WE REALLY NEED!”

My Dear Friends,

As you all know, our petition appeals directly to the extraterrestrial civilizations currently engaging mankind by asking them if they will intervene in human affairs and help rid us of our nuclear weapons.

What I would like you to consider this month is: how can we justify this request? How can we be sure that extraterrestrials would want to help us remove the biggest single – man made (!) - threat to the future survival of the human race?

OK, what we need here is to look at a little evidence that might afford us a glimpse into the motivations, and intentions, of extraterrestrials. We need to take a close look **ET's** actions.

And the first relevant action – undertaken by extraterrestrials - we are going to look at is the destruction of an American INTER-CONTINENTAL BALLISTIC MISSILE (ICBM) by a UFO.

This occurred during a test firing of a missile (with a dummy warhead) at Vandenberg Air Force Base in California back in 1964.

Our witness to this event was optical specialist Robert Jacobs (USAF Lieutenant, Ret.)

You can hear Professor Jacobs describe the incident, in his own words, here:

Robert Jacobs (USAF Lieutenant, Ret.)

Now why would extraterrestrials, and Professor Jacobs obviously believes that this action **was undertaken by extraterrestrials**, want to destroy a dummy warhead? What do they get out of it? They aren't being threatened, so self defence isn't a motive here. Their only possible motive for this particular action was that they were sending us a message - a message that appears to say two things: "**We don't like your nuclear weapons systems!**", and "**We can destroy these systems whenever, and wherever we like**".

"The Air Force is lying about the national security implications of unidentified aerial objects at nuclear bases."

Capt. Robert Salas (Ret.), ICBM Launch Officer, Malmstrom Air Force Base

Further proof – that our extraterrestrial visitors are extremely concerned about our nuclear weapons systems – comes in the form of witness testimony from another military source. And this time our witness was right there, on the nuclear war fighting front line, manning a Minuteman nuclear missile launch facility at Malmstrom Air Force Base in Montana back in 1967.

His name is Robert Salas (Captain, USAAF Ret.)

Robert: amongst others, bears witness to the 'taking down' of more than ten MinuteMan Missiles by a 'glowing red UFO' on March 16, 1967.

Child witness to the Ariel School Extraterrestrial Encounter at Ruwa in Zimbabwe back in 1994.

Listen to this little girl's testimony as she describes, in an interview with celebrated Harvard psychologist Professor John E Mack, how an extraterrestrial entity telepathically implanted a vision of a future world in which, "***All the air had been burned-up,***" in her mind.

The message delivered at Ruwa is intended for us all, you can listen to it here:

<https://www.youtube.com/watch?v=1W75HZD8VaE>

In a nuclear war – with all the cities, grasslands and forests burning: with nobody putting the fires out, billions of tons of carbon will be released into the atmosphere, where it will bond with oxygen to form carbon monoxide. All over the world people are going to suffocate.

The child witnesses at Ruwa all told a remarkably similar story and: when most of them were re-interviewed fourteen years later, in 2008, they all stood by their original testimony.

My Friends, Ruwa happened – and we ignore the extraterrestrial message: delivered via those 62 school children, at our peril.

Nor does the story end there my friends. Extraterrestrials have – by their actions – repeatedly demonstrated their concerns about our nuclear weapon systems. Check out the link below for more proof.

Now I sincerely hope that by now you are able to see our petition in a different way. Our petition isn't some off-the-wall, unsolicited overture made to extraterrestrials. Our petition is a RESPONSE that addresses concerns held, and expressed by our visitors. OUR PETITION ANSWERS A QUESTION THAT EXTRATERRESTRIALS HAVE ALREADY ASKED US!

Extraterrestrials are asking us whether or not we wish to retain our nuclear weapons. They are extending their hands in friendship and offering us an option THAT OUR GOVERNMENTS ARE NEVER GOING TO OFFER US!

If we accept that offer we can – with the help of our wider Cosmic Family – rid our world of all weapons of mass destruction forevermore.

And all we need to achieve this is more signatures on our petition.

MILLIONS MORE!

IT'S UP TO US.
